

CHROMacademy is the world's largest eLearning website for analytical scientists

Packed with practical information that will help improve your skills and productivity in the lab

1000's of eLearning Topics

HPLC / GC / Sample Prep
MS/ Infrared / Basic Lab Skills /
Biochromatography

The Essential Guide Webcast & Tutorial Archive

Over 70 training topics covered
by industry experts

HPLC & GC Troubleshooting and Virtual Lab Tools

Become the lab expert
with our HPLC and GC
Troubleshooters

Ask the Expert - 24hr Chromatography Support

Our experts will answer your
questions within 24 hours or less

Assessments

Test your knowledge,
certificates awarded
upon completion

6 Video Training Courses

Fundamental:
HPLC / GCMS / GC / LCMS
Method Development:
HPLC / GC

User Forum

science

Application Notes & Articles

The latest Application notes &
LCGC articles

“CHROMacademy is chock full of informative and interactive modules that address virtually every aspect of modern separations. It is an indispensable tool & brilliant source for understanding the technique” **Kevin A. Schug, Ph.D.**

CHROMacademy is used across the globe by over 40,000 members to help increase their knowledge, efficiency and productivity in the lab. With a vast library of high-quality animated and interactive eLearning topics, webcasts, tutorials and troubleshooting tools we can help you refresh your chromatography skills or learn something completely new.

So what makes CHROMacademy an indispensable tool?

1000's of eLearning topics

CHROMacademy is the world's largest eLearning website for analytical scientists, containing 1000's of interactive learning topics - Lite members have access to less than 5% of our content. Premier members get so much more!

HPLC | GC | Mass Spec | Sample Prep | Infrared Basic Lab Skills | Biochromatography

Each channel contains e-Learning modules, webcasts, tutorials, tech tips, quick guides and interactive tools and certified assessments with over 3,000 pages of content we have something for everyone.

When it all goes wrong... premier members can "Ask the Expert"

At no extra charge our dedicated team of analytical experts are on hand to help fix your instrument and chromatographic problems, offer advice on method development & validation, column choice, data analysis and much more. Simply email or phone the support team and we will get back with a solution in less than 24 hours.

Webcasts and Tutorials - *The Essential Guides*

With over 60 hours of on demand webcasts covering all aspects of separation science CHROMacademy is not only the biggest eLearning website for analytical scientists but also the most prolific with new content added weekly by our industry experts.

Our HPLC and GC Troubleshooters are helping create future experts

As a Lite Member you can access our troubleshooters but only Premier members can view our extensive library of resources. Premier members learn not only how to fix their problems but more importantly how to prevent them recurring.

6 Video Training Courses

Fundamentals of HPLC, GCMS, GC, LCMS | HPLC & GC Method Development

Watch, listen and learn with our new video courses. Each course contains 4 x 1.5 hour video training sessions, released over 4 weeks, with full tutor support and certification.

Certified courses with tutor support - Premier Members Only

HPLC & GC Operator Course | HPLC & GC Method Developer Course

Our tutors will be on hand to answer your questions as you progress through the course material.

Convincing the Boss!

High quality training doesn't just benefit you, it benefits the people for whom you work and the people you work with. We are certain that training with CHROMacademy will make you a more valuable asset to your company. Let's see if we can help you convince the powers that be.

HOW MUCH! - \$399.00 | £245.00 | €350.00

Our Premier membership fee is a bargain.

For the comparable price of a single Face to Face training course, CHROMacademy offers 100's of hours of learning content across multiple subjects and gives members the opportunity to delve further into the science. From Basic Lab skills to more advanced subjects like HPLC Method Development we are convinced that you will quickly learn new skills and become more productive in the lab - return on investment guaranteed.

Up-skill your lab - Remember that the cost of hiring outside candidates greatly outweighs the costs of promoting within, employee development is essential to secure the success of any lab and CHROMacademy is an inexpensive solution to the Professional Development question. Per dollar spent CHROMacademy out performs other courses, books and expensive conferences.

Don't have Time for Training

A lab staffed by more knowledgeable chromatographers will have less instrument downtime, team members who can foresee and prevent problems occurring and of course Premier members have real time access to our industry experts if something does go wrong!

Faster Method Development, more robust lab procedures ... understanding the basic principles of chromatography will help you to quickly develop and improve methods when either faced with a new set of analytes, or challenged with reducing analysis times and costs within your laboratory. As well as helping you understand the basics we will help to advance your knowledge of modern, advanced analytical techniques.

With our doors open 24/7 time spent learning with CHROMacademy [from your office or home] will be returned many times over and members don't need to take days out of the lab to attend more expensive Face to Face training events. The information will also be at your fingertips whenever you require a refresher course.

Our material is designed to be used as either a comprehensive guide to all aspects of separation science or as a reference site that is easy to dip in and out of in manageable bitesize sections - simply pick the specific topic you are interested in and delve into the library of modules, quick guides and webcasts at your own pace.

Prove it!

How will I prove that I'm learning new skills and using the website?

This is easy - not only will you be able to demonstrate your new found knowledge in the lab but your progress can be tracked with our online reporting tools [with management access]. To truly show your command of the material, each module has an optional assessment with downloadable Certificates of Completion - perfect for your CPD folder.

How up to date is CHROMacademy?

With new learning material added each month you and your employer can be confident that CHROMacademy is up to date. From webcasts and tutorials on Biopharmaceutical analysis to e-Learning modules on modern techniques and new instrumentation, CHROMacademy is dedicated to keeping it's members abreast of the latest trends and advances in our industry.
